Although it is well known that bones farmers of Ohio do not seem to appreciate them, judging from the immense quantity that is annually wasted. In Europe, it pays to collect all the bones, and they are never allowed to lie around the premistranger would form a high estimate of cannot thrive on such food.

turned, and espnot well be, in the nature skeleton. Many of the battle fields of Eucattle, that every year leave the State, but diog two hobbies at once they The bones of the ox, according to Berze. Telegraph. lius, are composed of cartilage and vessels, soluble in water, 33,30 parts: neutral phosphate of lime, 55,46; carbonate of lime, 3,85: fluoride of calcium, 2,90; North-western State are flat enough. In phophate of magnesia 2,05; soda with a any event, Lincoln would have carried little common salt, 245-160 parts. Dif. the State against Douglas and a united ferent parts of the skeleton wary in the party by a large m jority. But in the war component elements of bone, and there of the factious, the bone and sinus of the is also considerable difference in the same old Democratic organization—the henest bones in different animals. According to Barros; the lion has only 2,03 parts of carbonate of lime to 100 parts of the phos- pudiated by the leaders of the party. phate of the same earth, while the sheep has 24,12 parts to 100, and the hen 11,-

Of all the natural grasses, Timothy contains the largest proportion of lime, beseveral other grasses. If these elements, Douglas! along with the potash, which more than equals in weight both the others, are taken from the soil, and no return made, the land will soon be unable to support the growth of Timothy, and will run to some other grass or weed, that needs a smaller one Deer West of the Hocking Valley Bank. amount of these matters. The Timothy will be literally straved out. To retain will be literally straved out. To retain will be filerally straved out. To retain the file taken to resoils in heart care must be taken to reliteral public of which there.

nure, and a large proportion of that saved the same. I would especially make my acknowledge to shipped East. A good way to prepare the same. I would especially make my acknowledge the shipped East. A good way to prepare the same. I would especially make my acknowledge the shipped East. A good way to prepare the same. I would especially make my acknowledge the same to the same and acid. In this state they are called su perphosphates, but the superphosphates of commerce are often greatly adulterated. should obtain the strongest, as a smaller proportion will dissolve the bones, and is therefore more economi al; and if he has not to buy the latter, it will be much better than to purchase manufactured superphosphates. Previous to being mixed with the acid, the bones should be well broken; then placed in a tight cask or barthem; then add the acid, in the propertion of a half to a fourth of the weight of the bones. If it is desirable to apply in the shape of liquid manure, add a large proportion of water. For all crops, this is an excellent manure, and nothing will increase the furtility of a field more rapidly, whatever may be the crop, applied in sufficient quantity. - Ohio Farmer.

TROYTING AT AGRICULTURAL FAIRS .--Are not our agricultural exhibitions degenerating from what they were first intended to be? The intention of the orige STONEBURNER JEFFRIES&Co inators of these exhibitions was to improve to excetatt stook, to advance agricultural and mechan-selling of work of all kinds, a ical science; and to forther sgricultural improvement. But what is the effect?- and stard Mainly, I would say, to know whose horse can frot the fastest. Take away this part of the exhibition and it will coase to attract attention -in fact it could not be austained. This is the case in our section, and perhaps more or less in others. W. H. Suyder, Rosemont, N. J.

KERRING APPLES. - A correspondent of rem the Farmer's Journal says he took a keg a keg full of apples last full, which he so MILLINERY STORE, cusely bended up and sunk to the bottom of a mill pond. On bringing them to the surface a few days ago, every apple was found to be quite free from speck or rot.

HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consamption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparaphysicians in those sections of the country where the article is best known, who not only mmend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of atomachie derangements and the diseases resulting therefrom. This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-

peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is stined to be as enduring as time itself. Hostetter's Stomach Bitters have proved Godsend to regions where fever and ague and various other billous complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them

of the functions of pature. Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuveniting generally. We have the evi-dence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach deangements and general debility; acting under the advice of physicians, they have shandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora-tors that receive the endorsement of physiians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength.
All those persens, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, distribute, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial. CAUTION.—We caution the public against

using any of the many imitations or counterfeits, but ask for Hostetten's Celebrated STONACH BITTERS, and see that each bottle has the words " Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph aignature is on the label.

Prepared and sold by HOBTETTER & SMITH, Pittsburgh, Pa., and sold by sil druggists, grocers, and dealers generally throughout the United States, South Americs, and Germany.

LINDSAY'S IMPROVED BE BLOOD SEARCHER A STANDRAD MEDICINE or the speedy, radical, and effectual cure of ALL DISEASES arising from IMPURITY of the BLOOD.

his medicine has wrought the most miraculous cures This medicine has wrought the most miraculous cures Scrofula, Cutaneous Diseases, Pimples in the Pace, old stubborn utcers, totters affections dyspensia, junction, mercurial diseases. Hvor complaint, low spirits, cancerous formations, Fryaipelas, Bolls, some cros, scald head. Rheumatic disorders, condiveness, and theum, general debility, loss of appetite, foul stomach. Female Complaints, and all Diseases having their original in an impure state of the Blood.

The above is a portrait of David McCreery, of Napier township, who, on the Bist day of Argust, 1858, made and david before Justice Gorley, that he wastreated for the care of Canest by three physicians of Bedford county, and by Dr. Newton of the Eclectic College in Cinciunnii, for aperiod of nearly eight months, notwithstanding which, his lip, nose and a portion of his left check were entirely eaten away! He had given up all hope, when he heard of the "Blood Searcher," and was induced to try it. Four bottles arrowdhim, and although sadly disfigured, there is no question but what this invaluable medicine sixed his life. The full particulars of this remarkable case may be seen in a circular, which can be had of any of the agents. We also refer to the case of Nancy Bleakney of Elderton. A timstrung county, Pennsylvania, cared of Scrofula situs being unable to got out of bed for 2 years. To the case of a lady in Anson ville, Clearfield County, who was also afflicted with Scrofula in its worst form.

ty, who was also afflicted with Serofala in its worst form.

To the case of George Moisel, residing in Carrolltown, Cambria county, Pennsylvania, who was so bad by afflicted with Cancer that it eat his entire nose off, and his case was worse, if possible than McCreery's.

The particular softhese cases, every one of which was cured by the use of the Blood Searcher—may also be found in a circular to be had of any agent.
